

## Technical Change of 3C 302-200 P01/P03

blacktech Number	OEM Part Number	Cross References	Application
<b>3C 302-200 P01</b>	Gigant 881204	Conti FT 412-32 1/2 M10	Trailer
<b>3C 302-200 P03</b>	Fruehauf M 00 2297	Dunlop SP 2666 NB	Trailer

**3C 302-200 P01/P03**

**3C 306-200 P01/P03**

In order to improve the efficiency of former Blacktech Versions **3C 302-200 P01** and **3C 302-200 P03** we will switch to the revised versions **3C 306-200 P01** and **3C 306-200 P03**. In this case we will use instead of the metal ring, a steel ring consisting of a combination of many wires, which will be implemented during the vulcanization process. This will have a positive effect on the durability of our products.

The above mentioned blacktech reference is available in the Independent Aftermarket: Our broad product portfolio offers more than 1,300 blacktech Air Springs to choose from, covering more than 80 % of all major vehicle applications. **blacktech Air Springs – Designed Strong and Durable.**
